## INDEPENDENT AUDITOR'S REPORT

Board of Directors  
Faulkey Gully Municipal  
Utility District  
Harris County, Texas

We have audited the accompanying financial statements of the governmental activities and each major fund of Faulkey Gully Municipal Utility District (the "District"), as of and for the year ended March 31, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of March 31, 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis and the Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund and Special Revenue Fund be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary information required by the Texas Commission on Environmental Quality as published in the *Water District Financial Management Guide* is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The supplementary information, excluding that portion marked "Unaudited" on which we express no opinion or provide any assurance, has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

**FAULKEY GULLY MUNICIPAL UTILITY DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED MARCH 31, 2016**

Management's discussion and analysis of Faulkey Gully Municipal Utility District's (the "District") financial performance provides an overview of the District's financial activities for the fiscal year ended March 31, 2016. Please read it in conjunction with the District's financial statements.

**USING THIS ANNUAL REPORT**

This annual report consists of a series of financial statements. The basic financial statements include: (1) combined fund financial statements and government-wide financial statements and (2) notes to the financial statements. The combined fund financial statements and government-wide financial statements combine both: (1) the Statement of Net Position and Governmental Funds Balance Sheet and (2) the Statement of Activities and Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances. This report also includes other supplementary information in addition to the basic financial statements.

**GOVERNMENT-WIDE FINANCIAL STATEMENTS**

The District's annual report includes two financial statements combining the government-wide financial statements and the fund financial statements. The government-wide portion of these statements provides both long-term and short-term information about the District's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in full accrual accounting and elimination or reclassification of internal activities.

The first of the government-wide statements is the Statement of Net Position. The Statement of Net Position is the District-wide statement of its financial position presenting information that includes all of the District's assets, deferred outflows of resources and liabilities, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall health of the District would extend to other non-financial factors.

The government-wide portion of the Statement of Activities reports how the District's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid.

**FUND FINANCIAL STATEMENTS**

The combined statements also include fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District has three governmental fund types. The General Fund accounts for resources not accounted for in another fund, customer service revenues, operating costs and general expenditures. The Special Revenue Fund accounts for financial activities of the joint wastewater treatment plant. The Debt Service Fund accounts for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes.

**FAULKEY GULLY MUNICIPAL UTILITY DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED MARCH 31, 2016**

**FUND FINANCIAL STATEMENTS (Continued)**

Governmental funds are reported in each of the financial statements. The focus in the fund statements provides a distinctive view of the District's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of the District and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. The adjustments columns, the Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position and the Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities explain the differences between the two presentations and assist in understanding the differences between these two perspectives.

**NOTES TO THE FINANCIAL STATEMENTS**

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements.

**OTHER INFORMATION**

In addition to the financial statements and accompanying notes, this report also presents certain required supplementary information ("RSI"). Budgetary comparison schedules are included as RSI for the General Fund and the Special Revenue Fund.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Net position may serve over time as a useful indicator of the District's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities by \$17,330,609 as of March 31, 2016.

A portion of the District's net position reflects its investment in capital assets (water and wastewater facilities less any debt used to acquire those assets that is still outstanding).

The following is a comparative analysis of government-wide changes in net position:

MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED MARCH 31, 2016**

**FINANCIAL ANALYSIS OF THE DISTRICT'S GOVERNMENTAL FUNDS**

The District's combined fund balances as of March 31, 2016, were \$7,207,567, an increase of \$1,624,742 from the prior year.

The General Fund fund balance increased by \$1,605,480, primarily due to service and tax revenues exceeding the costs of operating and maintaining the District's systems.

The Debt Service Fund fund balance increased by \$19,262, primarily due to the structure of the District's debt service requirements.

**BUDGETARY HIGHLIGHTS**

The Board of Directors did not amend the General Fund budget during the current fiscal year. Actual revenues were \$387,246 more than budgeted revenues primarily due to higher than anticipated property tax revenues and proceeds from the sale of land. Actual expenditures were \$394,055 less than budgeted expenditures primarily due to lower than anticipated costs in most categories.

**CAPITAL ASSETS**

Capital assets as of March 31, 2016, total \$12,461,632 (net of accumulated depreciation) and include land, buildings, and equipment as well as the water, wastewater, and drainage systems. Significant capital asset activity during the current fiscal year included the wastewater treatment plant improvements, new District office building build-out, and Louetta Road lift station rehabilitation costs.

**LONG - TERM DEBT ACTIVITY**

As of March 31, 2016, the District had total bond debt payable of \$10,030,000. The changes in the debt position of the District during the current fiscal year are summarized as follows:

Bond Debt Payable, April 1, 2015	\$ 10,965,000
Less: Bond Principal Paid	<u>935,000</u>
Bond Debt Payable, March 31, 2016	<u>\$ 10,030,000</u>

The District has an underlying rating of A1 from Moody's Rating Services ("Moody's"). The District's Series 2008 Bonds were sold with an insured rating of Aa3 by virtue of bond insurance issued by Financial Security Assurance, Inc. The current insurance is through Assured Guaranty Municipal ("AGM"). The current rating of AGM and therefore the Series 2008 Bonds is A3. The Series 2012 Bonds were sold without an insured rating. The District's Series 2015 Bonds were sold with an insured rating of "AA" by virtue of bond insurance issued by Municipal Assurance Corp. ("MAC"). All ratings are as of March 31, 2016, and reflect changes, if any, through that date.

**NOTE 1. CREATION OF DISTRICT**

Faulkey Gully Municipal Utility District of Harris County, (the “District”) was created by an Order of the Texas Water Rights Commission, presently known as the Texas Commission on Environmental Quality, effective March 21, 1973. Pursuant to the provisions of Chapters 49 and 54 of the Texas Water Code, the District is empowered to purchase, operate, and maintain all facilities, plants, and improvements necessary to provide water, sanitary sewer service, storm sewer drainage, irrigation, solid waste collection and disposal, including recycling, parks and recreational facilities for the residents of the District. The District is also empowered to contract for or employ its own peace officers with powers to make arrests and to establish, operate and maintain a fire department to perform all fire-fighting activities within the District. The Board of Directors held its first meeting on April 13, 1973, and the first bonds were sold on February 28, 1978.

**NOTE 2. SIGNIFICANT ACCOUNTING POLICIES**

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board (“GASB”). In addition, the accounting records of the District are maintained generally in accordance with the *Water District Financial Management Guide* published by the Commission.

The District is a political subdivision of the State of Texas governed by an elected board. GASB has established the criteria for determining whether or not an entity is a primary government or a component unit of a primary government. The primary criteria are that it has a separately elected governing body, it is legally separate, and it is fiscally independent of other state and local governments. Under these criteria, the District is considered a primary government and is not a component unit of any other government. Additionally, no other entities meet the criteria for inclusion in the District’s financial statement as component units. The District participates in a joint venture operation of a wastewater treatment plant. The District exercises oversight responsibility over the plant and accounts for the activity of the plant in its Special Revenue Fund. See Note 9 for additional disclosure.

Financial Statement Presentation

These financial statements have been prepared in accordance with GASB Codification of Governmental Accounting and Financial Reporting Standards Part II, Financial Reporting.

Financial Statement Presentation (Continued)

GASB Codification sets forth standards for external financial reporting for all state and local government entities, which include a requirement for a Statement of Net Position and a Statement of Activities. It requires the classification of net position into three components: Net Investment in Capital Assets; Restricted; and Unrestricted. These classifications are defined as follows:

- Net Investment in Capital Assets – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.
- Restricted Net Position – This component of net position consists of external constraints placed on the use of assets imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulation of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Position – This component of net position consists of assets that do not meet the definition of Restricted or Net Investment in Capital Assets.

When both restricted and unrestricted resources are available for use, generally it is the District's policy to use restricted resources first.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. The District's Statement of Net Position and Statement of Activities are combined with the governmental fund financial statements. The District is viewed as a special-purpose government and has the option of combining these financial statements.

The Statement of Net Position is reported by adjusting the governmental fund types to report on the full accrual basis, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. Any amounts recorded due to and due from other funds are eliminated in the Statement of Net Position.

The Statement of Activities is reported by adjusting the governmental fund types to report only items related to current year revenues and expenditures. Items such as capital outlay are allocated over their estimated useful lives as depreciation expense. Internal activities between governmental funds, if any, are eliminated by adjustment to obtain net total revenue and expense of the government-wide Statement of Activities.

Fund Financial Statements

As discussed above, the District's fund financial statements are combined with the government-wide statements. The fund statements include a Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances.

Governmental Funds

The District has three governmental funds and considers each to be a major fund.

General Fund - To account for resources not required to be accounted for in another fund, customer service revenues, operating costs and general expenditures.

Special Revenue Fund To account for financial activities of the joint wastewater treatment plant.

Debt Service Fund - To account for ad valorem taxes and financial resources restricted, committed or assigned for servicing bond debt and the cost of assessing and collecting taxes.

Basis of Accounting

The District uses the modified accrual basis of accounting for governmental fund types. The modified accrual basis of accounting recognizes revenues when both "measurable and available." Measurable means the amount can be determined. Available means collectible within the current period or soon enough thereafter to pay current liabilities. The District considers revenue reported in governmental funds to be available if they are collectible within 60 days after year end. Also, under the modified accrual basis of accounting, expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, which are recognized as expenditures when payment is due.

Property taxes considered available by the District and included in revenue include taxes collected during the year and taxes collected after year-end, which were considered available to defray the expenditures of the current year. Deferred tax revenues are those taxes which the District does not reasonably expect to be collected soon enough in the subsequent period to finance current expenditures.

Amounts transferred from one fund to another fund are reported as other financing sources or uses. Loans by one fund to another fund and amounts paid by one fund for another fund are reported as interfund receivables and payables in the Governmental Funds Balance Sheet if there is intent to repay the amount and if the debtor fund has the ability to repay the advance on a timely basis. As of March 31, 2016, the Debt Service Fund owed the General Fund \$5,058 for maintenance tax collections, the General Fund owed the Special Revenue Fund \$40,267 for the District's share of wastewater treatment plant operations and the Special Revenue Fund owed the General Fund \$45,771 for capital advances and operating costs.

 NOTES TO THE FINANCIAL STATEMENTS  
 MARCH 31, 2016**

**NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Capital Assets

Capital assets, which include property, plants, equipment, and infrastructure assets, are reported in the government-wide Statement of Net Position. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as expenditures in the governmental fund incurred and as an expense in the government-wide Statement of Activities. Capital asset additions, improvements, and preservation costs that extend the life of an asset are capitalized and depreciated over the estimated useful life of the asset. Interest costs, including developer interest, engineering fees and certain other costs are capitalized as part of the asset.

Assets are capitalized, including infrastructure assets, if they have an original cost of \$10,000 or more, and a useful life of at least two years. Depreciation is calculated on each class of depreciable property using no salvage value and the straight-line method of depreciation. Estimated useful lives are as follows:

	Years
Buildings	40
Water System	10-45
Wastewater System	10-45
Drainage System	10-45
All Other Equipment	3-20

Budgeting

In compliance with governmental accounting principles, the Board of Directors annually adopts unappropriated budgets for the General Fund and Special Revenue Fund. The budgets were not amended during the current fiscal year.

Pensions

The District has not established a pension plan. The Internal Revenue Service has determined that fees of office received by Directors are considered to be wages subject to federal income tax withholding for payroll purposes only.

Measurement Focus

Measurement focus is a term used to describe which transactions are recognized within the various financial statements. In the government-wide Statement of Net Position and Statement of Activities, the governmental activities are presented using the economic resources measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position, financial position, and cash flows. All assets and liabilities associated with the activities are reported. Fund equity is classified as net position.

Governmental fund types are accounted for on a spending or financial flow measurement focus. Accordingly, only current assets and current liabilities are included on the Balance Sheet, and the reported fund balances provide an indication of available spendable or appropriable resources. Operating statements of governmental fund types report increases and decreases in available spendable resources. Fund balances in governmental funds using are classified the following hierarchy:

*Nonspendable*: amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

*Restricted*: amounts that can be spent only for specific purposes because of constitutional provisions, or enabling legislation, or because of constraints that are imposed externally.

*Committed*: amounts that can be spent only for purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. This action must be made no later than the end of the fiscal year. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. The District does not have any committed fund balances.

*Assigned*: amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purposes. The District has not adopted a formal policy regarding the assignment of fund balances and does not have any assigned fund balances.

*Unassigned*: all other spendable amounts in the General Fund.

When expenditures are incurred for which restricted, committed, assigned or unassigned fund balances are available, the District considers amounts to have been spent first out of restricted funds, then committed funds, then assigned funds, and finally unassigned funds.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

	<u>\$ 10,030,000</u>	<u>\$ 2,957,558</u>	<u>\$ 12,987,558</u>

The District has authorized but unissued bonds in the amount of \$17,150,000. The bonds are payable from the proceeds of an ad valorem tax levied upon all property subject to taxation within the District, without limitation as to rate or amount, and are further payable from and secured by a lien on and pledge of the net revenues to be received from the operation of the District's waterworks and sanitary sewer system.

During the year ended March 31, 2016, the District levied its 2015 ad valorem debt service tax rate of \$0.23 per \$100 of assessed valuation, which resulted in a tax levy of \$1,300,821 on the adjusted taxable valuation of \$565,404,390. The bond resolutions require the District to levy and collect an ad valorem debt service tax sufficient to pay interest and principal on bonds when due and the cost of assessing and collecting taxes. See Note 7 for the maintenance tax levy.

**FAULKEY GULLY MUNICIPAL UTILITY DISTRICT**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**MARCH 31, 2016**

**NOTE 3. LONG-TERM DEBT (Continued)**

The District's tax calendar is as follows:

Lien Date - January 1.

Billing Date - October 1 or as soon thereafter as practicable.

Due Date - Not later than January 31.

Delinquent Date - February 1, at which time the taxpayer is liable for penalty and interest.

**NOTE 4. SIGNIFICANT BOND RESOLUTION AND LEGAL REQUIREMENTS**

The District has covenanted that it will take all necessary steps to comply with the requirement that rebatable arbitrage earnings on the investment of the gross proceeds of the Bonds, within the meaning of section 148(f) of the Internal Revenue Code, be rebated to the federal government. The minimum requirement for determination of the rebatable amount is on the five-year anniversary of each issue.

The District is required by the Securities and Exchange Commission to provide continuing disclosure of certain general financial information and operating data to each nationally recognized municipal securities information depository and the state information depository. This information, along with the audited annual financial statements, is to be provided within six months after the end of each fiscal year and shall continue to be provided through the life of the bonds.

**NOTE 5. DEPOSITS AND INVESTMENTS**

Deposits

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District's deposit policy for custodial credit risk requires compliance with the provisions of Texas statutes.

Texas statutes require that any cash balance in any fund shall, to the extent not insured by the Federal Deposit Insurance Corporation or its successor, be continuously secured by a valid pledge to the District of securities eligible under the laws of Texas to secure the funds of the District, having an aggregate market value, including accrued interest, at all times equal to the uninsured cash balance in the fund to which such securities are pledged. At fiscal year-end, the carrying amount of the District's deposits was \$7,397,778 and the bank balance was \$7,426,728. The District was not exposed to custodial credit risk at year-end.

**NOTE 5. DEPOSITS AND INVESTMENTS**

Deposits (Continued)

The carrying values of the deposits are included in the Governmental Funds Balance Sheet and the Statement of Net Position at March 31, 2016, as listed below:

	Cash	Certificates of Deposit	Total
GENERAL FUND	\$ 3,756,882	\$ 3,220,000	\$ 6,976,882
SPECIAL REVENUE FUND	109,264		109,264
DEBT SERVICE FUND	311,632		311,632
TOTAL DEPOSITS	\$ 4,177,778	\$ 3,220,000	\$ 7,397,778

Investments

Under Texas law, the District is required to invest its funds under written investment policies that primarily emphasize safety of principal and liquidity and that address investment diversification, yield, maturity, and the quality and capability of investment management, and all District funds must be invested in accordance with the following investment objectives: understanding the suitability of the investment to the District’s financial requirements, first; preservation and safety of principal, second; liquidity, third; marketability of the investments if the need arises to liquidate the investment before maturity, fourth; diversification of the investment portfolio, fifth; and yield, sixth. The District’s investments must be made “with judgment and care, under prevailing circumstances, that a person of prudence, discretion, and intelligence would exercise in the management of the person’s own affairs, not for speculation, but for investment, considering the probable safety of capital and the probable income to be derived.” No person may invest District funds without express written authority from the Board of Directors.

Texas statutes include specifications for and limitations applicable to the District and its authority to purchase investments as defined in the Public Funds Investment Act. Authorized investments are summarized as follows: (1) obligations of the United States or its agencies and instrumentalities, (2) direct obligations of the State of Texas or its agencies and instrumentalities, (3) certain collateralized mortgage obligations, (4) other obligations, the principal of and interest on which are unconditionally guaranteed or insured by the State of Texas or the United States or its agencies and instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, (5) certain A rated or higher obligations of states, agencies, counties, cities, and other political subdivisions of any state, (6) bonds issued, assumed or guaranteed by the State of Israel, (7) insured or collateralized certificates of deposit, (8) certain fully collateralized repurchase agreements secured by delivery, (9) certain bankers’ acceptances with limitations, (10)

commercial paper rated A-1 or P-1 or higher and a maturity of 270 days or less, (11) no-load money market mutual funds and no-load mutual funds with limitations, (12) certain guaranteed investment contracts, (13) certain qualified governmental investment pools and (14) a qualified securities lending program.

All investments are recorded at cost, which the District considers to be fair value. The District invests in TexPool, an external investment pool that is not SEC-registered. The State Comptroller of Public Accounts of the State of Texas has oversight of the pool. Federated Investors, Inc. manages the daily operations of the pool under a contract with the Comptroller. The fair value of the District's position in the pool is the same as the value of pool shares.

As of March 31, 2016, the District had the following investments and maturities:

Fund and Investment Type	Fair Value	Maturities - Less Than 1 Year
<u>GENERAL FUND</u>		
TexPool	\$ 36,551	\$ 36,551
Certificates of Deposit	3,220,000	3,220,000
<u>DEBT SERVICE FUND</u>		
TexPool	3,232	3,232
<b>TOTAL INVESTMENTS</b>	<b>\$ 3,259,783</b>	<b>\$ 3,259,783</b>

Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. At March 31, 2016, the District's investment in TexPool was rated AAAM by Standard and Poor's. The District manages credit risk by investing in certificates of deposit with balances below FDIC coverage or which have balances covered by pledged collateral. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District considers the investment in TexPool to have a maturity of less than one year due to the fact the share position can usually be redeemed each day at the discretion of the District, unless there has been a significant change in value. The District manages interest rate risk by investing in certificates of deposit with maturities of less than one year.

Restrictions

All cash and investments of the Special Revenue Fund are restricted for the payment of joint wastewater treatment plant operations. All cash and investments of the Debt Service Fund are restricted for the payment of debt service and the cost of assessing and collecting taxes.

**NOTE 7. MAINTENANCE TAX**

On April 5, 1975, the voters of the District approved the levy and collection of a maintenance tax not to exceed \$0.25 per \$100 of assessed valuation of taxable property within the District. On May 3, 2003, the voters of the District approved an increase in the maximum maintenance tax not to exceed \$0.50 per \$100 of assessed valuation of taxable property within the District. During the year ended March 31, 2016, the District levied its 2015 ad valorem maintenance tax rate of \$0.19 per \$100 of assessed valuation, which resulted in a tax levy of \$1,074,590 on the adjusted taxable valuation of \$565,404,390. This maintenance tax is to be used by the General Fund to pay expenditures of operating the District's waterworks and sanitary sewer system.

**NOTE 8. RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, and natural disasters. The District carries commercial insurance to provide property, general liability, automobile, boiler and machinery, pollution, directors and officers liability and workers compensation coverage. There has been no significant reduction in coverage from the prior year and settlements have not exceeded coverage in the past three years.

**NOTE 9. SEWAGE TREATMENT OPERATIONS AND MAINTENANCE AGREEMENTS**

On April 11, 1978, the District entered into an agreement with Malcomson Road Utility District (“Malcomson Road”) for assignment of 150,000 gallons per day capacity (gpd) in the District’s then existing 400,000 gpd sewage treatment plant and for the sharing of construction and acquisition costs of the sewage treatment plant and related facilities. In addition, the agreement calls for Malcomson Road to share in the cost of operating the sewage treatment plant on a basis of plant capacity.

On August 30, 1984, the District entered into an agreement with two Developers within the District to expand the existing sewage treatment plant by 800,000 gpd capacity. The District agreed to fund 520,000 gpd of the constructed capacity, and the Developers the remaining 280,000 gpd. Subsequent to entering into the agreement, and following meetings with representatives of the City of Houston, an additional 100,000 gpd was included in the construction in anticipation of the original plant being downgraded to 300,000 gpd due to changes in the loading criteria of the plant.

In 1989, the District sold bonds to purchase one Developer’s capacity; however, the Commission required that funds be escrowed pending the District showing a need to own the capacity. During a prior fiscal year, the Commission approved the release of \$196,879 of escrowed funds for the District to purchase the facilities, subject to the District and the Developers amending the agreement to reallocate the plant expansion on the basis of 900,000 gpd.

This action was accomplished through an agreement titled “Second Addendum to Agreement for Expansion of Sewage Treatment Facilities.” On the basis of this agreement, constructed capacity of the expansion was reallocated to 585,000 gpd funded by the District and 315,000 gpd funded by the Developers; and the District was authorized to purchase 103,600 gpd of one developer’s capacity from escrowed funds. During a prior fiscal year, Malcomson Road funded \$49,684 to the District for their share of the upgrade capacity. The District has subsequently purchased all capacity from the respective Developers excluding that portion of the upgrade purchased by Malcomson Road.

**NOTE 9. SEWAGE TREATMENT OPERATIONS AND MAINTENANCE AGREEMENTS (Continued)**

On September 19, 2002, the District and Malcomson Road entered into an agreement for expansion of the sewage treatment plant. This agreement calls for the District to administer the contracts and payment of invoices. The cost of the completed facility has been recorded as a part of the District’s wastewater system assets. The participants in the operations of the sewage treatment plant are:

	Gallons Per Day Capacity	Operations Cost Allocation
Faulkey Gully Municipal Utility District	1,235,000	86.97%
Malcomson Road Utility District	185,000	13.03%
	1,420,000	100.00%

The operation of the sewage treatment plant facility is recorded in the District’s financial statements under the heading “Special Revenue Fund.” Separate financial statements of the joint venture are not issued. Malcomson Road and the District have advanced funds to assist with the month-to-month sewer plant operations with the districts providing \$3,875 and \$27,125, respectively, for a total of \$31,000.

**NOTE 10. EMERGENCY WATER SUPPLY AGREEMENTS**

On August 10, 1982, and as amended on January 12, 1998, the District executed a contract with Harris County Municipal Utility District No. 18 (“MUD 18”) to provide emergency water supply services. Under the terms of the contract, the District shall bear the cost of the interconnect. The charge for service to either district shall be 1.25 times the rate at which water is supplied by MUD 18 to single family residential customers within its boundaries. The term of the contract is 40 years. On December 19, 2002, the District approved Amendment No. 1 to this Emergency Water Supply Agreement to pass through the fees assessed by the North Harris County Regional Water Authority.

On August 22, 1984, the District executed an Emergency Water Supply Contract with Grant Road Public Utility District to provide emergency water supply services. The District executed a supplement to this contract on April 14, 1986. The District agreed to acquire and construct all the facilities necessary to connect the two districts. The charge for service shall be \$100 for each day or part thereof during which a district is receiving temporary water service. The contract is in force for a period of 40 years from the date of execution.

**NOTE 10. EMERGENCY WATER SUPPLY AGREEMENTS (Continued)**

On April 20, 1989, the District executed a second supplement to the contract with Grant Road Public Utility District providing for non-emergency water supply when water is needed for situations not defined as emergencies. The contract provides for the water to be provided for a period not greater than 60 days at a rate of \$0.90 per 1,000 gallons of water utilized by the receiving district. On August 10, 2000, the District executed the First Amendment to the second supplement to the contract in order to pass through fees assessed by the North Harris County Regional Water Authority.

On June 4, 1998, the District executed an Emergency Water Supply Contract with Pitcairn Water Supply Corporation (the "Corporation"). In accordance with the agreement, the Corporation agreed to acquire and construct all facilities necessary to connect to the District's water supply system. During an emergency, the District shall open the valve in the line connecting the two systems and supply water to the Corporation, but only after the Corporation provides notice of the emergency to the District's operator. In order for the Corporation to draw water in other than an emergency, the Corporation must obtain prior written consent of the District. The District shall not be obligated to supply water in simultaneous emergencies.

The Corporation will be billed annually for water at the rate of \$2.00 per 1,000 gallons on the first 1 million gallons of water and \$2.50 per 1,000 gallons over 1 million gallons of water received. In addition, the Corporation agreed to fund all reasonable costs incurred by the District in implementing the interconnect during an emergency. The agreement is in force and effect from the date of its execution until January 1, 1999. The contract shall thereafter be automatically renewed each year but shall be subject to termination by either party by providing one year's written notice at any time.

**NOTE 11. NORTH HARRIS COUNTY REGIONAL WATER AUTHORITY**

The District is located within the boundaries of the North Harris County Regional Water Authority (the "Authority"). The Authority was created under Article 16, Section 59 of the Texas Constitution by House Bill 2965 (the "Act"), as passed by the seventy-fifth Texas Legislature, in 1999. The Act empowers the Authority to provide for the conservation, preservation, protection, recharge and prevention of waste of groundwater, and for the reduction of groundwater withdrawals. The Authority has entered into a contract for purchase of surface water from the City of Houston, Texas, to assure that its participants comply with the Harris-Galveston Subsidence District ("HGSD") pumpage requirements, which mandate that districts within HGSD boundaries, including the District, to convert a percentage of its water use to surface water over a period of time.

**FAULKEY GULLY MUNICIPAL UTILITY DISTRICT**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**MARCH 31, 2016**

**NOTE 11. NORTH HARRIS COUNTY REGIONAL WATER AUTHORITY**  
(Continued)

The Authority currently charges a fee, based on the amount of water pumped from a well, to the owner of wells located within the boundaries of the Authority, unless exempted. The pumpage fee charged at year-end was \$2.00 per 1,000 gallons of water pumped from each well. The Authority also charges a surface water fee, based on amount of received surface water. The surface water fee was \$2.45 per 1,000 gallons at year-end. As of April 1, 2016, the pumpage fee charge is \$2.40 per 1,000 gallons of water pumped from each well and the surface water fee is \$2.85 per 1,000 gallons. During the current fiscal year, the District incurred costs of \$307,416 for pumpage fees and \$674,073 for purchased surface water.

Capital Contributions Receivable

The District has entered into capital contribution contracts with the Authority. The District receives capital contribution credits to be applied to the quarterly pumpage fees which the Authority assesses, applied to any water purchased by the District from the Authority, or to be paid to the District in cash. The Authority calculates the credits by amortizing the Capital Contribution over the life of the Authority's bonds.

On July 7, 2003, the District entered into a Capital Contribution Contract with the Authority and on October 2, 2003, approved the First Amendment to the Capital Contribution Contract. The District paid \$2,546,251 to the Authority for the District's share of the construction of the 2010 Surface Water Distribution and Transmission System. During the current fiscal year, the District received credits of \$185,563 including a return of principal of \$73,608. The 2003 capital contribution balance is \$2,140,349.

On July 21, 2005, the District sold bonds for the District's \$1,787,314 share of the surface water conversion project. During the current fiscal year, the District received credits of \$121,892 including a return of principal of \$46,000. The 2005 capital contribution balance is \$1,532,078.

On July 10, 2008, the District entered into a capital contribution contract with the Authority and on August 5, 2008, the District made the payment of \$3,530,656 to the Authority. The District received credits of \$260,018 including a return of principal of \$74,995. The 2008 capital contribution balance is \$3,366,924.

Chloramine Conversion Reimbursement

The Authority required the District to convert its water systems to chloramine disinfection for as long as it is connected to the Authority's system. The District has completed its chloramine conversion system. The District's reimbursable cost of this system was \$696,836. The Authority calculated the reimbursement at 6% interest over a 30-year period. The District began receiving chloramine conversion credits on the August, 2011 Authority billing. Total credits earned in the current fiscal year were \$50,625. Of this amount, \$10,918 was a return of principal with the balance being applicable to interest. The following is a schedule of the remaining chloramine conversion credits to be received under the terms of the agreement.

**NOTE 12. STRATEGIC PARTNERSHIP AGREEMENT**

Effective July 1, 2004, the District entered into a Strategic Partnership Agreement with the City of Houston, Texas (the “City”). The agreement was amended effective December 13, 2010. The agreement provides that in accordance with Subchapter F of Chapter 43 of the Local Government Code and Act, the City shall annex a tract of land defined as the “Subject Tract” for the limited purposes of applying the City’s Planning, Zoning, Health, and Safety Ordinances within the Subject Tract within the boundaries of the District. The District will continue to develop, to own, and to operate and maintain a water, wastewater, and drainage system in the District. The City imposes a Sales and Use Tax within the boundaries of the Subject Tract at the rate of one percent (or the rate specified under the future amendments to Chapter 321 of the Tax Code). The City pays the District one-half of all Sales and Use Tax revenues generated within the boundaries of the Subject Tract. The City delivers to the District its share of the sales tax receipts within 30 days of the City receiving the funds from the State Comptroller’s office. Sales tax revenues in the current fiscal year totaled \$227,978. The City agrees that it will not annex the District for full purposes or commence any action to annex the District for full purposes during the term of this Agreement. The term of this Agreement is 30 years from the effective date of the original agreement.
